STUDIOS

We are not real-estate moguls putting our lands to the in-trend use.
In simple words, the studios by Cellar Door are spaces designed, built and operated by creators for creators.
And today, we are the largest and (if we may say so ourselves) the most loved chain of studios in Delhi NCR.

Our studios are as plug-n-play as they can be and yet super customizable. The aesthetics are designed to be a mix of what is in, was in and will be in, so that the spaces and the creations stand the test of time. Most of our studios are even equipped with high-end gear so that redundancies, and hence costs, are minimized.

The dimensions and layouts are designed for no-compromise shoots. And it is all topped with creature comforts which will make you come back without thinking twice.

Multiple zones. multiple moods.
